## **A NEW HOPE FOR YOUR CHILD**

**Parenthèse offers an excellent education experience for your child.**

**Having undergone a multi-million-dollar renovation during the summer of 2022, it now offers spacious spaces for your son or daughter to thrive in.**

**At parenthèse, we are a team of passionate teachers trying to revolutionize education. We use modern teaching methods. We are also investing our resources in an environment-friendly approach because we think that environmental issues are a key subject for the future of education.**

**Our school is located close to the city center, among the beautiful buildings of Strasbourg. The work charge will not overwhelm your child, as we believe that they should work smart, and not hard.**

**We especially value teamwork, as can be seen during our English classes, supervised by English specialist Julie SIEGEL, pair of students work together to merge their English knowledge and enhance productivity.**
